

Annual Report
July 1, 2021
June 30, 2022

Our Mission

Our mission is to coordinate resources and efficiently deliver workforce readiness services for the residents and businesses of Atlantic County through educational and technical skills training that responds to the needs of the employers.

Our Vision

Our vision is to enhance the economic climate of Atlantic County by providing a skilled workforce that is responsive to the needs of all businesses in Atlantic County and its vicinity.

Our Goals

- ***To evaluate the local workforce development system to ensure effective and efficient delivery of services.***
- ***To garnish high quality partnerships with the private and public sector businesses.***
- ***To increase our out of school youth services to meet the 75 percent expenditure requirement in accordance with WIOA.***
- ***To serve as a clearinghouse for planning, labor market assessment needs and workforce development services and resources for both the residents and businesses of Atlantic County.***
- ***To enhance our technology to quickly and effectively communicate information to all residents and businesses.***

Welcome from the WDB Chairperson

2022 has been a much better year for the local workforce that was severely impacted by the COVID-19 pandemic in 2020 and 2021. With the increase in public mobility this year, we have seen more activity at many business locations and an increase in the demand for employees at casinos, retail establishments, and in the hospitality industry. Another encouraging sign has been the positive impact of federal government guidelines for internships that will add more trained individuals into the current workforce. This will improve our ability to provide qualified candidates for vacancies in Atlantic City casinos and other workplaces.

The Atlantic County Workforce Development Board continues to play a leading role as it did during the last two years of the pandemic. The temporary closure of all operations at One Stop Centers throughout the state disturbed the short-term and long-term business plans of the ACWDB during that time. But the ACWDB has initiated new efforts for greater resiliency in its short-term and long-term business plans. It is also committed to working with the One Stop operator to follow the guidelines of the federal government to realize its goals.

During and following the unprecedented pandemic, I have witnessed the hard work and dedication of ACWDB officials and staff in addressing the needs of our area residents.

I thank all the ACWDB committee chairs and members for providing expert assistance and continually working for the benefit of our residents. I also thank and appreciate the hard work of the One Stop Center director and his team and look forward to working together to improve the quality of life for those we serve.

Riaz A. Rajput

Riaz, A. Rajput, Chairperson

Greetings from the WDB Executive Director

With another year behind us and the pandemic that impacted every facet of our daily lives for more than two years somewhat in the rear-view mirror, I would like to take this time to review our 2022 triumphs and challenges.

The Atlantic County Workforce Development Board made some major service delivery shifts as a result of Covid-19. Some of them have proven to be beneficial to both businesses and workers. But the pandemic has also moved us away from personal interactions and networking. Instead we have become more reliant on technology as the primary means to interact and communicate. In the best of both worlds, we maintain a hybrid model of services for safety and efficiency.

The year began with a good deal of hope that the end of the malaise was near and things would return to “normal.” While the definition of normal may have changed, there are a number of indicators that we are headed in a positive direction. First, in January of 2022, the unemployment rate for Atlantic County was 7.4%. There were 9,100 unemployment recipients. As of October of 2022, most recent numbers indicated Atlantic County's unemployment rate at 4.9% with 6,400 individuals receiving unemployment benefits. While these numbers are still higher than other areas of the state, the trend toward employment opportunities and sustainable jobs is gaining momentum.

Early in the year, our job development unit created work-based learning opportunities for both training candidates and employers. Atlantic County WDB has committed to having work-based learning as a centerpiece for training new workers in future careers. As of the time of this writing, the agency has four resources for work-based learning services. Those services include On-the-Job Training, Incumbent Worker Training, Registered Apprenticeship and Transitional Jobs. All of these training resources offer a direct relationship between employer and trainee - paid work experience for the trainee and wage reimbursement for the employer. Moving forward, the agency intends to expand and enhance these training offerings for both trainees and employers.

In May, the Atlantic County Workforce Development Board once again participated in the Summer Youth Employment Program offering paid summer work experience to both in-school and out-of-school youth in Atlantic County. This year, 70 youth participated in this work experience with 19 employers representing a variety of businesses, including Atlantic City Electric, the local utility authority, and a funeral home. I am also happy to announce that eight of those participants continue to work with those employers in either a full or part-time capacity. In a separate summer program, 17 TANF youth participated in a paid work experience, giving them the opportunity to develop real work skills that will prepare them for future employment opportunities.

Adjusting to the “new normal,” the agency began using virtual services, in addition to the more traditional face-to-face interaction, to address customer needs. In July, a joint agreement between the state employment services and the One Stop's Employment and Training unit created a live, virtual re-employment orientation to inform and educate new customers on our training and employment services. These presentations are now held twice a week at the One Stop.

Occupational training continues to be a major area of interest for our customers, with the majority of training contracts offered in the healthcare, transportation/logistics, IT and hospitality industries. The Atlantic County Workforce Development Board took several major actions to support out-of-county Licensed Practical Nurse training when the local training resource was no longer available. Because of the large increase in gas prices, the board approved a policy for supportive services that provides additional funding for the cost of transportation. These actions assure the best chance of success for our customers.

One of the primary goals for the Atlantic County Workforce Development Board this year was to make concerted efforts to make the agency relevant. By relevant, I mean to make it a known quantity that offers added value to the residents and businesses of Atlantic County. During the past two and a half years, while no one was able to obtain assistance for their unemployment problems, Atlantic County had direct access to the local unemployment workers. As a result, many residents' unemployment problems and concerns. Additionally, the board and I have worked closely with the county's skilled public information officer and chief of staff to create a marketing campaign for our public assistance and WIOA customers. The campaign includes television commercials, radio, and print advertising with the Atlantic County Workforce Development branding. We want everyone in the community to be aware of the workforce resources and opportunities available at 2 South Main Street in Pleasantville.

Finally, at the time of this writing, after nearly three years of waiting, the Atlantic City Electric line school program currently has an active class of students. They are preparing to assume positions with the utility industry succeeding those workers who are ready to retire. At the same time, we are using registered apprenticeship programs and incumbent worker trainings to upskill current workers to assume those vacated positions.

All in all, 2022 has been a good year for the Atlantic County Workforce Development Board with new training resources and the development of strong partners to assist in identifying customer and business needs, creating training programs to address those identified needs and providing newly trained workers sustainable career paths that benefit both the worker and the employer. Given the accomplishments of 2022, I can't wait to see what we can do in 2023!

Sincerely,

Francis F Kuhn

Francis F. Kuhn

CHRISTIAN CASTILLO-CHANTEAM SUCCESS

Christian Castillo-Chan is a single 24-year-old SNAP recipient who has charge of his two teenaged siblings, a 16-year-old sister and an 18-year-old brother. Both are high school students. Christian is a college graduate with a BA in Psychology from Stockton University, but his work history/career has been limited to the retail/service industry. When he came to the ACWDB in 2021 with an interest in CDL-A training, he was employed at Dunkin Donuts for approximately 3 years. He kept working there while attending training at Mike's Driving School. Christian completed training and obtained his CDL-A license in December of 2021. In February 2022, he obtained a fulltime job at Hopewell Nursery as a truck driver. With the assistance from our team he now makes \$25.00 per hour and is no longer receiving SNAP benefits.

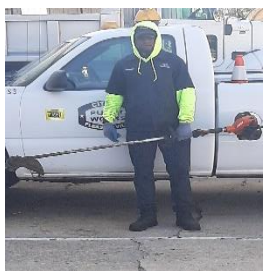

SHANNON BRADSHAWTEAM SUCCESS

Shannon is a single 53-year-old single mother of a 19-year-old daughter. Shannon has a significant service relationship with the ACWDB. In 2015, as a TANF recipient, she received grant funding and successfully completed the CNA training and obtained a CNA license. She worked as a CNA for approximately six years. In 2021, Shannon was referred for tutoring at the Learning Link and in 2022 achieved her High School Equivalency. In 2022, she was again approved for grant funding as an ADULT for Certified Clinical Medical Assistant training at Academy of Healthcare Excellence. Shannon successfully completed the training and went on to pass and obtain the NATIONAL CREDENTIAL for CCMA from National Healthcare Association as well as the NATIONAL CREDENTIAL for Certified Phlebotomy Technician. The training and credentials allowed her to obtain a full-time job with AtlantiCare as CCMA, with a start date in October 2022. Self-sufficiency has been her goal and our team was pleased to play a supporting role in Shannon's success.

Immanuel GilliamTeam Success

Immanuel applied for Summer Youth employment during the April registration in time for the May start. Immanuel was initially very shy and quiet. This would be his first job. His ultimate goal is to become a police officer. His coworkers and supervisor loved working with him and observed him coming out of his quiet shell. As the eight weeks of SYEP came to an end, the Human Resource Manager for the City of Pleasantville offered its one position to Immanuel. He accepted and has begun working full time for the City of Pleasantville in the Public Works Department.

Chanel Green-EI Team Success

Chanel is a shining star in her own right as a song writer and songstress. She started out in search of her high school diploma and worked with one of our YouthWorks staffer's that connected her to IDEAL Institute of Technology. She worked hard and achieved her goals and landed a job working in the streets of Atlantic City as a mentor and an employee of IDEAL in the newly developed position with the

Atlantic City Street Wise Program.

ONE STOP CAREER CENTERS JULY 1, 2021 – JUNE 2022

Atlantic County Workforce Development: Literacy Performance Goals

Literacy Services

The Learning Link provides literacy services for customers who have achieved scores between 6th and 12th grade level on the CASAS academic assessment and are interested in pursuing either post-secondary education or occupational training. Learning Link services are also offered for those customers with goals to achieve a high school diploma. The data related to the Learning Link are found below:

PY21-22 Actual Learning Link Outcomes (Grades 6 to 12)

	2022 year to date
Referred	37
Referred to Job Training/Post-Secondary Education	7
Attained High School Equivalency	5
Entered Employment	6

Supplemental Learning Lab

The Supplemental Learning Plan provides services to customers who have assessed at an academic level between 4th and 6th grade level. The scope of customers served in the population included adult, dislocated worker and youth who were eligible to receive WIOA services.

	July 2021 – June 2022
Referred	51
Enrolled (12 hours of attendance)	51
Completed	17
Referred to Higher Level	3

The objective of the Supplemental Learning Lab is to provide an additional literacy resource for those customers in need of academic remediation. Our team is trained to support them in achieving the requisite grade levels for pursuit of training or secondary and post-secondary credentials.

English as a Second Language (ESL) / Adult Basic Education (ABE)

The Atlantic County Workforce Development Board also funds services for workforce participants who scored below a fourth-grade level with the Atlantic Cape Community College to provide these literacy services. The services were designed primarily for those customers who were participating in the mandated activity requirement for public assistance recipients.

Work First New Jersey

Our performance year has challenged our team to be more creative and develop new ways to reach TANF, SNAP and GA the public assistance population. To increase participation our goal is to continue with Job Readiness and Job Placement in this community. We worked hard to connect a work activity to the participants that were mandated to complete this requirement, but the numbers are declining. Our team rolled out a new program “Foundations for Success” that provided virtual and face to face formatting to meet the needs of our customers. This program has been in place since last fall and has continued with a consistent level of success.

Our Family and Community Development team has serviced over 46 General Assistance (GA) customers and over 164 *TANF families. The Work First New Jersey Team has provided services for 425 *TANF, 184 GA and 54 *SNAP customers during a period between July1, 2021 and June 30, 2022.

The largest population required to participate in a work activity in the *SNAP/ABAWD (Food stamps). The agency is currently receiving approximately between 30-70 referrals per month for this population.

New Jersey State Department of Labor and Workforce Development

- Over 174 job openings were posted on the Atlantic County WD Facebook page.
- Due to Covid restrictions all Jersey Jobs Club activity remains virtual serving 40 customers.
- The State provided over 6,000 free online courses through METRICS.
- Over 785 job openings were posted through the Atlantic County Stop.
- Over 12 Positive On-Site Employer Recruitments at the Atlantic County One -Stop.

SUCCESS STORIES

Deneja Bell

New Jersey Youth Corps Class of 2022

Deneja Bell is an excellent example of someone with persistence, patience, and perseverance.

Deneja enrolled in the New Jersey Youth Corps Program in November 2021 and from the first class until her cohort concluded, she embraced the program and was determined to succeed.

Deneja was one of the top students in her class. She became a role model and mentor for some of her younger classmates. Some of her other achievements include:

- Earned the 10-hour OSHA Safety Training Credential
- Earned her New Jersey Driver's License
- Passed the HiSET HSE Exam earning her High School Diploma
- Transitioned into employment at Bally's Casino Hotel (Security Department)

In addition to being employed full-time. Deneja has been accepted at Atlantic Cape Community College in Mays Landing, NJ and will be enrolling in the Spring Semester of 2023.
